

# Keep Security WeirD

## Security B-sides Austin

[KeepSecurityWeird.Org](http://KeepSecurityWeird.Org)

April 12<sup>th</sup> & 13<sup>th</sup> 2012

The Hideout Theatre – 617 Congress Ave

## What is Security BSides?

*Security B-Sides is a framework of events that expose individuals to an eclectic gathering of Information Security people to hear awesome talks and have outrageously fun discussions! Our mission is to provide an inclusive, open environment for sharing and collaborative discourse on topics that most interest you.*

## Who should attend?

*Developers, Programmers, IT Professionals, System administrators Information Security Professionals and anyone who is interested in knowing what information security is all about and how you can integrate it into your profession.*

*If you are someone who designs, develops, maintains or supports applications internally or cloud based solutions, then BSides is for you. Learn skills to improve information security. Register at: [www.SecurityBSides.com/BSidesAustin2012](http://www.SecurityBSides.com/BSidesAustin2012)*
