That's right, a new weird location to grow and learn!!!

Pre-Con Special Event: Invite your family, friends and colleagues

Wednesday March 20th – 7pm – 10pm

Stateside Theatre – Downtown Austin (At the Paramount - 713 Congress Avenue)

BSidesTexas is proud to announce an exclusive showing of the award winning documentary about the hacking community. Director/Producer Jeremy Zerchak will be in attendance for a post movie Q & A. Food and beverage will be provided (if the sponsor gods are kind)

For anyone and everyone interested in what hackers can do – great educational documentary

Movie Tickets online at: <http://tickets.austintheatre.org/public/loader.asp?target=hall.asp?event=764>

SYNOPSIS

CODE 2600 documents the rise of the Information Technology Age as told through the events and people who helped build and manipulate it. The film explores the impact this new connectivity has on our ability to remain human while maintaining our personal privacy and security.

As we struggle to comprehend the wide-spanning socio-technical fallout caused by data collection and social networks, our modern culture is caught in an undercurrent of cyber-attacks, identity theft and privacy invasion. Both enlightening and disturbing, CODE 2600 is a provocative wake-up call for a society caught in the grips of a global technology takeover.

It promises to be a weird Security time for all
