

IBERO-AMERICAN WEB APPLICATIONS SECURITY CONFERENCE

IBWAS'10

Lisboa, December 16th and
17th 2010

Introduction

IBWAS'10 Sponsorship Opportunities

IBWAS10, the first Iberic Web Application Security conference will be held in Lisbon (Portugal), on the 16th and 17th December 2010. This conference aims to bring together application security experts, researchers, educators and practitioners from the industry, academia and international communities such as OWASP, in order to discuss open problems and new solutions in application security. In the context of this track academic researchers will be able to combine interesting results with the experience of practitioners and software engineers.

Open Web Application Security Project (OWASP) is an open-source application security project made up of corporations, educational organizations, and individuals from around the world. Providing free, vendor-neutral, practical, cost-effective application security guidelines, the organization has fast become the defacto standards body for Web AppSec.

OWASP & IBWAS are providing sponsors **exclusive** access to its audience providing a focused setting for potential customers. Attendees will be pushed through the Expo floor for breakfast, lunch and coffee breaks. The conference is expected to draw around 500 technologists who will be looking for most efficient ways to spend their 2011 budget. Government, Financial Services, Media, Pharmaceuticals, Healthcare, Technology, and many other verticals will be represented.

All sponsorship opportunities feature significant discounts to **OWASP members**, allowing you year-round access the web application security's top thinkers as well as use of OWASP materials in product and service delivery.
